This is the third and last object that we found in Europena. It is a serie of portraits of Grock called Portraitserie Grock | Eschen, Fritz (Fotograf). We briefly analyze it.

Titolo
    Portraitserie Grock | Eschen, Fritz (Fotograf)
Descrizione
    Portraitserie Grock
Persone
    Creatore: Eschen, Fritz (Fotograf)
Classificazioni
    Soggetto: Fotografie Kontaktbogen Bildnis Fotos Bildnis-Katalog

We have again the Dublin Core property **<dc:title>**, the name given to the resource. However, this time, we have also the **<dc:description>** in which we can find a definition, a free-text account of the resource. (Portraitserie Grock: a Portraitserie about Grock)
The Dublin Core property **Creator - <dc:creator>**, identify the entity primarily responsible for making the content of the resource. Fritz Eschen who was the photographer as it is written next in the square brackets.
The Dublin Core property **Subject - <dc:subject>** defines the topic of the object. Clearly missing is the reference to Grock while we can find other keywords: “Fotografie Kontaktbogen Bildnis Fotos Bildnis-Katalog”.

Tempo
    Data: 1950 20-th 20th 20th century Second half of the 20th century
    Periodo: Second half of the 20th century
The Dublin Core property **Date - <dc:date>** defines a significant date in the life of the object.
Period probably refers to the property **Temporal - <dcterms:temporal>**. It defines the temporal characteristics of the resource creation.

Provenienza
    Identificatore: http://www.deutschefotothek.de/obj70247434.html
    Fornitori Di Contenuti Or Dati: Deutsche Fotothek
    Fornitore: Deutsche Digitale Bibliothek
    Paese Fornitore: Germany
    Pubblicato In Europeana: 2017-02-13
    L'ultimo Aggiornamento Da Europeana: 2017-07-28

The Dublin Core property **Provenance - <dc:provenance>** defines the state of ownership/custody of the resource.
The Dublin Core property Identifier - <dc:identifier> defines an unambiguous reference to the resource within a given context. It is optional.
The property **Provider - <edm:provider>** defines the name/identifier of the organization, aggregator or project that delivers data directly to an aggregator service such as Europeana.
Providing Country is probably related to **Country - <edm:country>** that defines the name of the country in which the Provider is based.
First Published in Europeana and **Last Updated in Europeana** probably are both related to the property **Year - <edm:year>**, which defines a point in time associated with an event in the life of the object: so the first Published in Europeana and the Last Updated in Europeana.

Riferimenti E Relazioni

Dataset: 2048418_Ag_DE_DDB_SLUB-Sub10

The property **Dataset Name - <edm:datasetName>** holds the identifiers given to the dataset in Europeana.

Localizzazione

Collocazione Attuale: http://d-nb.info/gnd/4012995-0
